STOP/GO & NOW YOU KNOW!

Stop motion is an animation technique that physically manipulates an object that appears to move on its own. The object is moved in small increments between individually photographed frames, creating the illusion of movement when the series of frames is played as a continuous sequence.

DIRECTIONS: In this assignment Now that we have published an authentic World War I era newspaper, chronicling some of the most significant happening of The Great War, you will now be asked to select **1** story from your project & create a stop motion film depicting the event!

This video must be an accurate depiction of a real event but feel free to be creative in your historic account. (School Appropriate!) You will have the next **4 DAYS** to complete & please consult the provided rubric in the completion of your assignment. GOOD LUCK, have fun & be creative!
